

# Multimedia and Graphic Design - Final Practice Exam (100 Questions)

**Modules Covered:** Graphic Design Bootcamp, Photoshop (Part 1 & 2), Illustrator (Part 1), Multimedia Basics

1. True/False: Photoshop is vector-based software.  
**Answer: False**
2. True/False: Illustrator uses pixels for image creation.  
**Answer: False**
3. True/False: The Move Tool shortcut in Photoshop is V.  
**Answer: True**
4. True/False: Photoshop was developed by Thomas and John Knoll.  
**Answer: True**
5. True/False: Illustrator was first released in 1987.  
**Answer: True**
6. True/False: Layers allow users to edit parts of an image independently.  
**Answer: True**
7. True/False: PNG format supports transparency.  
**Answer: True**
8. True/False: EPS is a raster format.  
**Answer: False**
9. True/False: Adobe Creative Cloud replaced CS in 2013.  
**Answer: True**
10. True/False: The Lasso Tool is used to draw straight lines.  
**Answer: False**
11. True/False: Photoshop is raster-based software.  
**Answer: True**
12. True/False: Illustrator is mainly used for logo design.  
**Answer: True**
13. True/False: JPEG is a lossless image format.  
**Answer: False**
14. True/False: The Type Tool shortcut is T.  
**Answer: True**
15. True/False: Vectors are scalable without losing quality.  
**Answer: True**
16. True/False: The Color Palette shows RGB values.  
**Answer: True**
17. True/False: PDF is a vector format.  
**Answer: True**
18. True/False: Photoshop CC 2023 is part of Adobe Creative Cloud.  
**Answer: True**
19. True/False: Photoshop's default file format is PSD.  
**Answer: True**
20. True/False: The Crop Tool resizes an entire image.

**Answer: False**

21. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

22. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

23. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

24. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

25. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

26. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

27. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

28. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

29. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

30. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

31. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

32. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

33. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

34. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

35. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

36. Which of the following is raster-based software?

(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

37. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

38. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

39. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

40. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

41. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

42. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

43. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

44. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

45. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

46. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

47. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

48. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

49. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

50. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

51. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

52. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

53. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

54. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

55. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

56. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

57. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

58. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

59. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

60. Which of the following is raster-based software?  
(A) Illustrator (B) Photoshop (C) CorelDRAW (D) AutoCAD

**Answer: B**

61. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

62. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

63. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

64. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

65. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

66. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

67. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

68. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**

69. Explain the difference between raster and vector graphics.

86. Explain the difference between raster and vector graphics.

87. Explain the difference between raster and vector graphics.

88. Explain the difference between raster and vector graphics.

89. Explain the difference between raster and vector graphics.

90. Explain the difference between raster and vector graphics.

91. Explain the difference between raster and vector graphics.

92. Explain the difference between raster and vector graphics.

93. Explain the difference between raster and vector graphics.

94. Explain the difference between raster and vector graphics.

95. Explain the difference between raster and vector graphics.

96. Explain the difference between raster and vector graphics.

97. Explain the difference between raster and vector graphics.

98. Explain the difference between raster and vector graphics.

99. Explain the difference between raster and vector graphics.

100. Explain the difference between raster and vector graphics.

**Answer: Raster graphics are made of pixels and lose quality when scaled, while vector graphics are made of paths and can be resized without loss.**
