

From the hardware book

Chapter 1 Review

1. Match each part to the appropriate description:

- **Motherboard:** a. Contains the main electronic components.
 - **RAM:** b. Loses its data when the computer is turned off.
 - **DVD Drive:** c. Used to hold and read discs.
 - **Hard Drive:** d. Stores the largest amount of data.
 - **Adapter:** e. Fits into an add-on slot on the motherboard.
 - **Power Supply:** f. Converts power from the outlet to the computer's usable form.
-

2. Which device would commonly be found in a laptop?

- a. External mouse
 - b. Barcode scanner
 - c. Touchpad
 - d. Signature pad
- Answer:** c. Touchpad
-

3. Which of the following are useful search tips for the Internet?

(Choose two)

- a. Try another search tool if the first doesn't give good results.
- b. Include very common words like "the," "in," or "at."
- c. Enclose a group of words in quotes for exact matches.
- d. Use the fewest number of keywords possible.
- e. Avoid mentioning the device's brand name.

Answer: a, c

4. Which type of memory is installed on a motherboard?

- a. Cache memory
- b. RAM

- c. Flash storage
 - d. VRAM
- Answer:** b. RAM
-

5. **When lifting a heavy computer, you should squat, bend at the knees, and use your legs to lift.**
- a. **True**
 - b. False
- Answer:** a. True
-

6. **How many tests are required for A+ certification?**
- a. None
 - b. One
 - c. **Two**
 - d. Three
 - e. Four
- Answer:** c. Two
-

7. **Is the following question open-ended or closed-ended?**
“You say your computer has been running slowly since Monday. Which applications have you installed this week?”
- a. **Open-ended**
 - b. Closed-ended
- Answer:** a. Open-ended
-

8. **Give one example of demonstrating a positive attitude.**
- Answer:**
- Maintaining a calm tone while solving customer issues.
 - Smiling and being approachable during interactions.
 - Listening attentively to feedback.
 - Expressing gratitude for suggestions.
-

9. **Which of the following devices are considered output devices?**

(Select all that apply)

- a. Digital piano
- b. **Speakers**
- c. **Monitor**
- d. Stylus
- e. **Printer**
- f. Barcode reader
- g. Track stick

Answers: b. Speakers, c. Monitor, e. Printer

10. **People working with computers may need to lift objects weighing:**

- a. 10 to 20 pounds
- b. **20 to 30 pounds**
- c. 30 to 40 pounds
- d. 40 to 50 pounds

Answer: b. 20 to 30 pounds

11. **Which Windows program is used for creating a text file?**

- a. Textpad
- b. **Notepad**
- c. WriteIt
- d. NoteIt

Answer: b. Notepad

12. **Which tool in Windows allows screen capture?**

- a. Notepad
- b. Bluetooth settings
- c. Internet Explorer
- d. **Snipping Tool**

Answer: d. Snipping Tool

13. Rewrite the following conversation as an open-ended question:

Original: "Good morning. I see you are getting an error message when accessing PDF files. Have you updated Acrobat recently?"

Rewritten:

- "Good morning. Can you describe the issues you've experienced when trying to access PDF files?"
-

14. List one solution for fixing an erratic optical mouse.

Answer:

- Clean the mouse sensor or bottom with a soft cloth.
 - Ensure the mouse is on a flat, even surface.
 - Replace the batteries or check the USB connection.
-

15. Match the capacity term to its description:

- **Bit:** a. Represents a single binary value (0 or 1).
 - **Byte:** b. Equals 8 bits.
 - **Kilobyte:** c. Around 1,000 bytes.
 - **Megabyte:** d. Around 1 million bytes.
 - **Gigabyte:** e. Around 1 billion bytes.
 - **Terabyte:** f. Around 1 trillion bytes.
-

16. Match the peripheral to its description:

- **Flatbed Scanner:** a. Includes an Automatic Document Feeder (ADF).
 - **KVM:** b. Lets multiple computers share a monitor, keyboard, and mouse.
 - **QR Scanner:** c. Reads QR codes that may open websites or apps.
 - **Touchpad:** d. Found near the keyboard on laptops for navigation.
 - **Webcam:** e. Captures live video.
-

17. What is a key feature of an optical mouse?

- a. **Uses LEDs**
- b. Includes physical contacts
- c. Has volatile memory
- d. Converts analog signals

Answer: a. Uses LEDs

18. Which device is typically inside a computer?

- a. Touchpad
- b. Printer
- c. **Hard Drive**
- d. Headset

Answer: c. Hard Drive

19. Which component is visible inside and outside of a desktop computer?

- a. RAM
- b. Hard Drive
- c. Motherboard
- d. **DVD Drive**

Answer: d. DVD Drive

20. Where is RAM located in a desktop computer?

- a. Inside the power supply
- b. **Inserted into the motherboard**
- c. Below the keyboard
- d. Inside a KVM

Answer: b. Inserted into the motherboard

Questions

1. What is the name of the computer for which you found technical information?

- This would depend on the specific computer you researched (e.g., **Dell Inspiron 15 3000 Series, HP Pavilion x360**). You can fill in the name of the computer model you were working with.
-

2. How much RAM comes with the computer?

- Look up the specifications for the specific computer model (e.g., **8 GB RAM, 16 GB RAM**). This is specific to the computer you are researching.
-

3. Which URL did you use to find this information?

- Enter the website or URL where you found the technical specifications (e.g., <https://www.dell.com>, <https://www.hp.com>).
-

4. Which search term(s) would you use for the following scenario?

Scenario: An HP Windows 10 computer has a Samsung ML-2160 laser printer attached. The printer supports both wired and wireless printing. The wired computer can print fine, but no wireless devices can see the printer.

- Suggested search terms:
 - "Samsung ML-2160 wireless setup not working"
 - "Samsung ML-2160 cannot find printer on wireless network"
 - "Wireless printing issues Samsung ML-2160 Windows 10"
 - "Set up wireless printing Samsung ML-2160 HP computer"

5. Which search term(s) would you use in a search engine to help a friend who has accidentally deleted a file on a Windows 7 computer?

- Suggested search terms:
 - "Recover deleted files Windows 7"
 - "Restore deleted files from Recycle Bin Windows 7"
 - "Best recovery software for Windows 7"
 - "How to recover accidentally deleted files Windows 7"

Chapter 2 Review

1. Match the port to the description:

- **DVI:** f. Flat panel monitor
- **VGA:** e. CRT monitor
- **PS/2:** d. Mouse/keyboard
- **USB:** c. Connects up to 127 devices
- **NIC:** a. Ethernet
- **S/PDIF:** b. TOSLINK

2. What is one visual indication that a USB port can be used to charge a mobile device?

Answer: A lightning bolt or battery icon is displayed near the port.

3. What is a visual indication that a port is USB version 3.0?

Answer: The port is typically blue or labeled "SS" (SuperSpeed).

4. Which port uses an RJ-45 connector?

- a. Modem

b. **Ethernet**

c. Lightning

d. S/PDIF

Answer: b. Ethernet

5. **How is an eSATAp port different from an eSATA port?**

Answer: An eSATAp port combines power and data in a single connection, while eSATA requires a separate power source.

6. **Which video port can output both digital audio and video signals and is the most advanced?**

a. **DisplayPort**

b. DVI

c. HDMI

d. VGA

Answer: a. DisplayPort

7. **What is the most common DVI port?**

a. DVI-A

b. DVI-D

c. DVI-C

d. **DVI-I**

Answer: d. DVI-I

8. **Which has faster transfer speeds: USB 3.0 or 1000 Mbps Ethernet?**

a. **USB 3.0**

b. 1000 Mbps Ethernet

Answer: a. USB 3.0

9. **What is the maximum cable length for an Ethernet UTP cable?**

- a. **100 meters**
- b. 150 meters
- c. 200 meters
- d. 1000 meters

Answer: a. 100 meters

10. **Describe the physical difference between an analog sound port and a digital one.**

Answer:

- Analog sound ports are typically round with 3.5mm jacks.
 - Digital sound ports, like S/PDIF, use square or rectangular connectors, often with optical components.
-

11. **List two workplace titles that are not "sir" or "ma'am."**

Answer:

- Supervisor
 - Manager
-

12. **You see a port with no markings on a computer. How will you determine its purpose?**

Answer: Research the port using online resources or the computer's manual based on its physical characteristics.

13. **What type of port uses an RJ-11 connector?**

- a. Ethernet
- b. **Internal modem**
- c. Display
- d. Keyboard

Answer: b. Internal modem

14. Which port is more commonly found on Apple computers than other PCs?

- a. Ethernet
- b. RJ-45
- c. **Lightning**
- d. USB-C

Answer: c. Lightning

15. Which adapter converts an analog signal to a digital one?

- a. VGA to DVI-D
- b. DVI-I to HDMI
- c. Thunderbolt to DVI-I
- d. USB to Ethernet

Answer: a. VGA to DVI-D

16. A PC would most commonly have which type of USB port?

- a. **Type-A**
- b. Type-B
- c. Type-C
- d. Type-A/B

Answer: a. Type-A

17. Which cable can carry video, audio signals, and connect external storage devices?

- a. Type-A
- b. DVI-I
- c. **Thunderbolt**
- d. Mini-DIN

Answer: c. Thunderbolt

18. **In which situation would Bluetooth most likely be used?**

- a. To connect to a corporate wireless network
- b. To attach a keyboard to a PC**
- c. To connect a PC to a phone line
- d. To connect a flash drive to a camera

Answer: b. To attach a keyboard to a PC

19. **What is one advantage of having an adapter instead of an integrated motherboard port?**

Answer:

- Allows for flexibility in adding or replacing components.
 - Reduces repair costs if the port is damaged.
-

20. **What are two commonly used connectors on coaxial cables in video distribution systems?**

- a. **RG-6**
- b. RG-11
- c. RG-59**
- d. RJ-11
- e. RJ-45

Answers: a. RG-6, c. RG-59
