GRAMMAR

A Check (✓) the correct sentences. Rewrite the sentences that have mistakes. There is at least one correct sentence.

- 1 ☐ He is having an artificial leg.

He has an artificial leg.

- 2 ☐ Do you know who that athlete is?

Correct.

- 3 ☐ I'm sorry, but I'm not understanding what you mean.

I'm sorry, but I don't understand what you mean.

- 4 ☐ She's having some problems with her new computer.

Correct

- 5 ☐ We are knowing each other very well now.

We know each other very well now.

B Choose the correct answers (a, b, or c) to complete the text.

Child prodigies

There are some children who have unbelievable abilities. They are often called child prodigies, and they 1 can do things from a very young age that many people 2 aren't able to do even as adults. For example, Jeremy Bentham, the famous philosopher, 3 could speak Latin at the age of three.

But being very talented also has its disadvantages. Many people who were gifted as children don't 4 manage to live very happy lives. This is often because they 5 can't develop other skills, such as how to be sociable or talk confidently.

- | | | |
|--------------|------------|---------------|
| 1 a are able | b can | c could |
| 2 a succeed | b manage | c aren't able |
| 3 a can | b could | c managed |
| 4 a manage | b succeed | c able |
| 5 a couldn't | b not able | c can't |

C In each pair of sentences, there is one correct and one incorrect sentence. Check (✓) the correct sentences.

- 1 Felipe didn't succeed to learn to play an instrument.
Felipe didn't succeed in learning to play an instrument.
- 2 He isn't liking the new wheelchair he bought.
He doesn't like the new wheelchair he bought.
- 3 I could speak three languages at the age of five.
I can speak three languages at the age of five.
- 4 She is believing that the missing pilot is safe.
She believes that the missing pilot is safe.
- 5 We weren't able to get to the top of the mountain.
We weren't able in getting to the top of the mountain.

READING

A Read the text. Choose the correct answers (a, b, or c).

How to survive

In recent years, many people have become interested in learning about survival techniques. In other words, they want to know how they can survive in the wilderness after an accident, or in a natural disaster like an earthquake.

In the UK, the most famous survival expert is Bear Grylls. He learned how to survive in almost any situation you can possibly think of as part of his training for the Special Air Service (SAS) in the British Army. His TV programs showing people what they can do to find food and water in the wild are very popular and are watched by millions of people. Most people will never have to catch a rabbit in a forest or drink water collected from leaves, but they seem to enjoy the idea that they would survive thanks to the methods Bear Grylls demonstrates. It's easy to be brave sitting in an armchair at home!

But you don't have to be a member of the SAS to be able to survive in extreme conditions because the same rules apply whatever the circumstances. The most important things are finding water, making a shelter, staying warm, and finding food. Water is the most important as, without **it**, no one can survive for very long. If you can find water and avoid dying of cold or overheating in extreme temperatures, you probably have a good chance of getting home alive. In many real-life cases of survival, though, it seems to be luck that plays the most important role and not survival techniques.

- 1 The article says that TV survival shows are popular because ...
 - a people usually have lots of accidents.
 - b earthquakes are common.
 - ☒ c they can teach people something useful.
- 2 Bear Grylls is famous because ...
 - a the army trained him very well.
 - ☒ b many people watch his TV programs.
 - c he was in the SAS.
- 3 The writer believes that ordinary people ...
 - a need to know how to catch their own food.
 - ☒ b enjoy feeling danger without being in it.
 - c can become braver by following survival training.
- 4 What does the word "it," in bold in paragraph 3, refer to?
 - ☒ a water
 - b food
 - c shelter
- 5 According to the writer, what usually helps disaster survivors the most?
 - a knowing survival techniques
 - ☒ b being lucky
 - c building a shelter

LEVEL 3 – UNIT TEST

WRITING

A Do you think it's important to learn survival techniques? Why/why not? Write a blog post explaining your opinion. Write at least 200 words.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

SPEAKING

A Talk about the things you could do to survive in a disaster or dangerous situation such as an earthquake, a hurricane, or a plane crash.
